

Notice to local residents within the **South Hook LNG** Public Information Zone (PIZ)

At South Hook LNG we take safety very seriously. It is our top priority. As part of our quarterly safety communications we will be testing two sirens. One is the COMAH Alarm and the other is the All Clear Alarm.

NO ACTION NEED BE TAKEN BY LOCAL RESIDENTS

These two sirens will be tested at **14:30hrs** and again at **19:30hrs** on **Tuesday 5th April 2022**

During this testing two different sounds will be heard.

- The **COMAH Alarm** has a distinctive on/off sound – an intermittent tone.
- The **All Clear Alarm** is a single **continuous tone**.

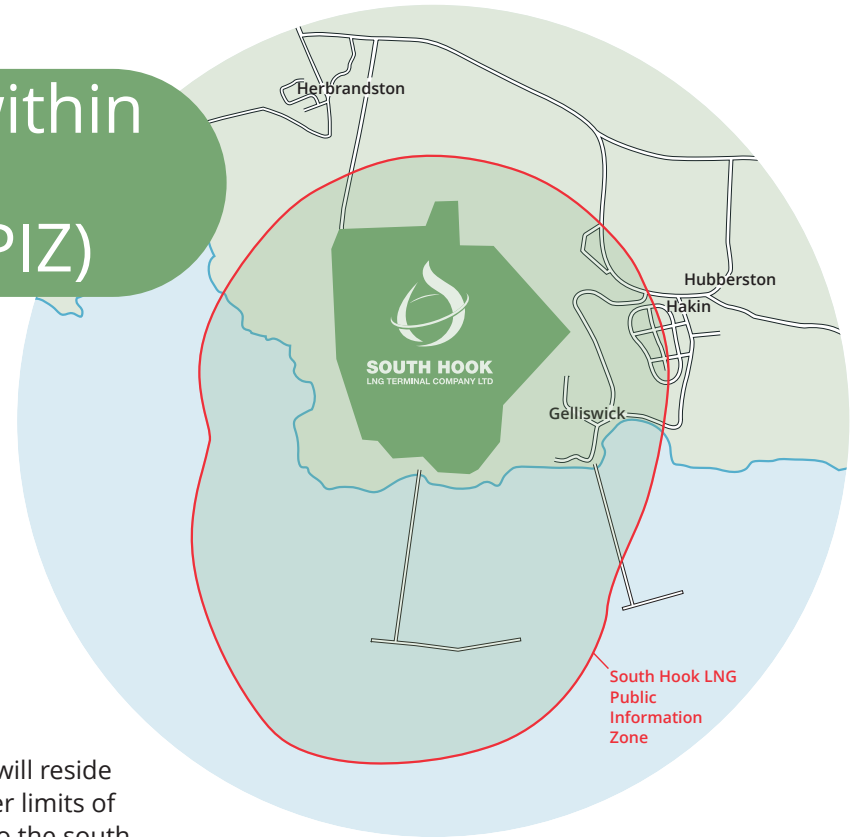

Important: this notice only applies to local residents within South Hook LNG's PIZ as illustrated right.

The COMAH Alarm needs to be audible **within the PIZ area**. Please note that you will reside **outside our PIZ area** if you live in: Herbrandston and beyond to the west, the outer limits of Hakin, Hubberston, Milford Haven and beyond to the east and Angle and beyond to the south.

At anytime you can hear a recording of the COMAH Alarm and the All Clear Alarm by calling our special freephone number **0800 046 3470** or go to our website **www.southhooklng.com**

For community relations enquiries we have set up a dedicated telephone line which is **01437 782012** and a dedicated email address which is **publicinfo@southhooklng.com**

[all calls to our Freephone number from a mobile are chargeable at your network provider's rate]
